## **COVID -19 DFE Update**

Should there be any local outbreaks, the school will take the advice of the Local Health team. In the event an outbreak either within the local area or the region, central government will make a decision on school closures. A national 4 tier system has been developed, where primary schools will only close if move into Tier 4.

### **Tiers of restrictions**

#### **Tier 1**

The default position for areas in national government intervention is that education and childcare settings will remain open. An area moving into national intervention with restrictions short of education and childcare closure is described as 'tier 1'. There are no changes to childcare, and the only difference in education settings is that where pupils in year 7 and above are educated, face coverings should be worn by adults and pupils when moving around the premises, outside of classrooms, such as in corridors and communal areas where social distancing cannot easily be maintained.

All nurseries, childminders, schools, colleges and other educational establishments should remain open and continue to allow all their children and young people to attend, on site, with no other restrictions in place.

#### **Tier 2**

Early years settings, primary schools and alternative provision (AP) providers, special schools and other specialist settings will continue to allow all children/pupils to attend on site. Secondary schools move to a rota model, combining on-site provision with remote education. They continue to allow full-time attendance on site to vulnerable children and young people and the children of critical workers. All other pupils should not attend on site except for their rota time. Further education (FE) providers should adopt similar principles with discretion to decide on a model that limits numbers on site but works for each individual setting.

In all areas of national government intervention, education settings where pupils in year 7 and above are educated, face coverings should be worn by adults and pupils when moving around the premises, outside of classrooms, such as in corridors and communal areas where social distancing cannot easily be maintained.

#### **Tier 3**

Childcare, nurseries, primary schools, AP, special schools and other specialist settings will continue to allow all children/pupils to attend on site. Secondary schools, FE colleges and

other educational establishments would allow full-time on-site provision only to vulnerable children, the children of critical workers and selected year groups (to be identified by Department for Education). Other pupils should not attend on site. Remote education to be provided for all other pupils.

In all areas of national government intervention, education settings where pupils in year 7 and above are educated, face coverings should be worn by adults and pupils when moving around the premises, outside of classrooms, such as in corridors and communal areas where social distancing cannot easily be maintained.

#### **Tier 4**

All nurseries, childminders, mainstream schools, colleges and other educational establishments allow full-time attendance on site only to our priority groups: vulnerable children and the children of critical workers. All other pupils should not attend on site. AP, special schools and other specialist settings will allow for full-time on-site attendance of all pupils. Remote education to be provided for all other pupils.

In all areas of national government intervention, education settings where pupils in year 7 and above are educated, face coverings should be worn by adults and pupils when moving around the premises, outside of classrooms, such as in corridors and communal areas where social distancing cannot easily be maintained.
