Changes to data protection legislation (GDPR May 2018) shall be monitored and implemented in order to remain compliant with all requirements. The legal bases for processing data are as follows

- (c) Legal obligation: the processing is necessary for the school to comply with the law (not including contractual obligations) The members of staff responsible for data protection are mainly Kelsey Mort (Headteacher) and Jill Farmer (School Administrator/Bursar). However all staff must treat all student information in a confidential manner and follow the guidelines as set out in this document.

The requirements of this policy are mandatory for all staff employed by the school and any third party contracted to provide services within the school.

The school as a body is the Data Controller under the 2018 Act, and the Governors are therefore ultimately responsible for implementation. However, the Designated Data Controllers will deal with day-to-day matters. The school has two Designated Data Controllers: They are the Headteacher and the Bursar.

Any member of staff, parent or other individual who considers that the Policy has not been followed in respect of personal data about himself or herself or their child should raise the matter with the appropriate Designated Data Controller.

Personal data about pupils will not be disclosed to third parties without the consent of the child's parent or carer, unless it is obliged by law or in the best interest of the child.

Data may be disclosed to the following third parties without consent:

- **Other schools:**

If a pupil transfers from Tilston School to another school, their academic records and other data that relates to their health and welfare will be forwarded onto the new school.

This will support a smooth transition from one school to the next and ensure that the child is provided for as is necessary. It will aid continuation which should ensure that there is minimal impact on the child's academic progress as a result of the move.

- **Examination authorities:**

This may be for registration purposes, to allow the pupils at our school to sit examinations set by external exam bodies.

- **Health authorities:**

As obliged under health legislation, the school may pass on information regarding the health of children in the school to monitor and avoid the spread of contagious diseases in the interest of public health.

- **Police and courts:**

If a situation arises where a criminal investigation is being carried out we may have to forward information on to the police to aid their investigation. We will pass information onto courts as and when it is ordered.

- **Social workers and support agencies:**

In order to protect or maintain the welfare of our pupils, and in cases of child abuse, it may be necessary to pass personal data on to social workers or support agencies.

- **Educational division:**

Schools may be required to pass data on in order to help the government to monitor the national educational system and enforce laws relating to education.

- **Right to be Forgotten:**

Where any personal data is no longer required for its original purpose, an individual can demand that the processing is stopped and all their personal data is erased by the school including any data held by contracted processors.

Photographs and Video:

Images of staff and pupils may be captured at appropriate times and as part of educational activities for use in school only.

Unless prior consent from parents/pupils/staff has been given, the school shall not utilise such images for publication or communication to external sources.

It is the school's policy that external parties (including parents) may not capture images of staff or pupils during such activities without prior consent.

Location of information and data:

Hard copy data, records, and personal information are stored out of sight and in a locked cupboard. The only exception to this is medical information that may require immediate access during the school day. This will be stored with the school medical coordinator.

Sensitive or personal information and data should not be removed from the school site, however the school acknowledges that some staff may need to transport data between the school and their home in order to access it for work in the evenings and at weekends. This may also apply in cases where staff have offsite meetings, or are on school visits with pupils.

The following guidelines are in place for staff in order to reduce the risk of personal data being compromised:

- Paper copies of data or personal information should not be taken off the school site. If these are misplaced, they are easily accessed. If there is no way to avoid taking a paper copy of data off the school site, the information should not be on view in public places, or left unattended under any circumstances.
- Unwanted paper copies of data, sensitive information or pupil files should be shredded. This also applies to handwritten notes if the notes reference any other staff member or pupil by name.
- Care must be taken to ensure that printouts of any personal or sensitive information are not left in printer trays or photocopiers.
- If information is being viewed on a PC, staff must ensure that the window and documents are properly shut down before leaving the computer unattended. Sensitive information should not be viewed on public computers.
- If it is necessary to transport data away from the school, it should be downloaded onto a USB stick. The data should not be transferred from this stick onto any home or public computers. Work should be edited from the USB, and saved onto the USB only.
- USB sticks that staff use must be password protected.

These guidelines are clearly communicated to all school staff, and any person who is found to be intentionally breaching this conduct will be disciplined in line with the seriousness of their misconduct.

Data Disposal:

The school recognises that the secure disposal of redundant data is an integral element to compliance with legal requirements and an area of increased risk.

All data held in any form of media (paper, tape, electronic) shall only be passed to a disposal partner with demonstrable competence in providing secure disposal services.

All data shall be destroyed or eradicated to agreed levels meeting recognised national standards, with confirmation at completion of the disposal process. Disposal of IT assets holding data shall be in compliance with ICO guidance:

https://ico.org.uk/media/fororganisations/documents/1570/it_asset_disposal_for_organisations.pdf

The school has identified a qualified source for disposal of IT assets and collections. The school also uses Shred-it to dispose of sensitive data that is no longer required.

Conclusion

Compliance with the 1998 Act is the responsibility of all members of the School. Any deliberate breach of the Data Protection Policy may lead to disciplinary action being taken, or even to a criminal prosecution.
